PERSONAL PROJECTS

Web Development (05/2021 - 09/2021)

- In this period I was focused on web page design and I managed to do a couple of projects. You can take a look at my repository on Github.

App Development (10/2021 - Present)

- I am currently developing applications with Flutter, and from time to time I dedicate myself to create personal projects to learn more about this framework. You can check out the projects on my Github repository.
